FLORENTINE

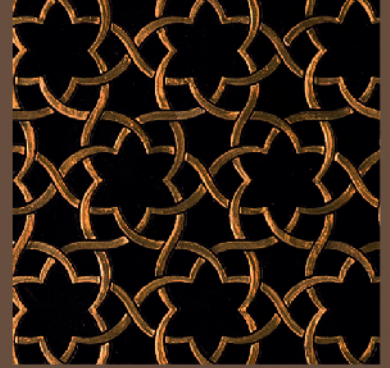

Perhaps no other European city is as responsible for the continent's master pieces as Florence. Art created in the Florentine style defined the Renaissance and was rooted in geometric principles of symmetry and proportion. These design tenets likewise define Sonite's Florentine collection of mosaics, each work created through a finely tuned balance of high-tech manufacturing and time-honored craftsmanship. Available in repeatable and geometrically precise sheets, Florentine mosaics are easy to install, simple to maintain and suitable for nearly any interior. Our ode to the Renaissance begins with Florentine – luxurious mosaics rooted in the past but created for today's modern interior spaces.
