METALLIC (20S)

The Metallic series is an eclectic mix of modern and traditional. Available in a wide range of colors not possible with other metal tiles, this series also exhibits a higher degree of chemical resistance. The contemporary look of these mosaics will match well with both classical and modern interior d cor.

LA CONCHA (60S)

Beautifully pearlescent La Concha glows with a refined sense of organic warmth and seaside luxury. Notably thin yet highly durable they afford designers a level of creative flexibility previously impossible with shell-based material. A palette of luminous colors enhance La concha's already impressive range of dimensional shapes. La Concha has become an international surfacing favorite among designers, garnering top industry awards in the USA, Japan and Thailand.

CLASSIC COLLECTION

Sonite's classic collection features square and rectangular mosaics suitable for many interior applications. Walls, ceilings, elevators and light traffic floors are enhanced by these durable yet surprisingly lightweight mosaics. Designers have welcomed these mosaics for their exceptional adaptability in residential, hospitality and commercial settings. Although these layouts are fairly simple, they spring to life in an array of light, texture and color when combined with Sonite's award-winning materials.

GEOMETRIC COLLECTION

"Geometry is the archetype of the beauty of the world."-Archimedes. Sonite's Geometric Collection represent a contemporary design aesthetic rooted in the mathematical genius of antiquity. Use these impressive patterns in single or multiple color combinations to add vivacity to any interior. Through mosaics patterns such as 'Polaris', 'Equinox' and 'Honeycomb', the beautiful link between nature, and design is geometrically revealed.

MASON COLLECTION

The ancient art of masonry, or brickwork, is reflected in many of the world's great monuments including the Egyptian pyramids and the Taj Mahal. Sonite pays homage to the mason's craft with its own timeless mosaic patterns featuring classic motifs and innovative takes on age-old patterns. Mason mosaics are also highly customizable by means of Sonite's online "Color-Rendering" tool, in which you can freely mix-n-match from hundreds of colors to create a personalized mosaic. Mason mosaics are finely crafted from Sonite's innovative materials representing an artful fusion of the classical past with the technology of today.

LAYERED TILES

Sonite's concave and convex tiles were developed with the main precepts of "innovation" and "infinite possibility" in mind. Each signature tile is composed of award-winning materials and demonstrates a unique ability to be layered two or three tiles deep. Available in an expressive collection of shapes, sizes and colors, Sonite's Layered Tile pattern yields exceptional qualities of depth and texture to any space.

SIAMESE

Over time, cultures develop an innate visual identity through a mix of their fine and applied arts. Thailand's (aka "Siam") aesthetic is now characterized by ornate tropical florals coupled with complex geometric motifs; typically differing from others in Asia by their stylized line quality and impressive graphic density. Today, Sonite's innovative artisans have crafted mosaics that embrace and reflect the aesthetic essence of Thai design. The Siamese Collection features extraordinary graphic details never before seen in commercial mosaics. These highly expressive mosaics truly exude the affluence and Oriental splendor of ancient Siam.

SAFARI

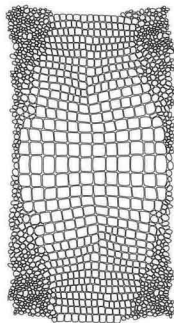

Safari is an expedition-an observance of the beauty of wild animals and nature in Africa. The majestic beauty of the Serengeti plain in East Africa, spanning from south western Kenya to Tanzania, inspires the SAFARI collection. Serengeti's vast savanna and migration paths are rich in colors and patterns, conjuring images of a romantic history. Safari mosaics lend to interior spaces the lush colors and lively forms, paying tributes to one of Africa's most wondrous regions.

METROPOLITAN

As a company often working alongside architects and interior designers, we are constantly inspired by the beautiful buildings and spaces we encounter. In this light, Sonite created the Metropolitan collection of mosaic patterns. The Metropolitan collection takes it's creative cues from classic modern design elements and infuse them with a level of glamor to create a clean yet chic look.

MAGNOLIA
Sheet size 33.4 x 34.6 cm.
13.1 x 13.6 inch

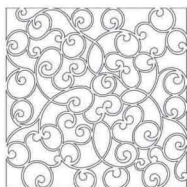

FOLIAGE
Sheet size 31.4 x 30.6 cm.
12.4 x 12.0 inch

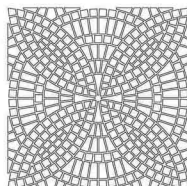

VINE
Shown in 20S-820-Cocoa Brown

FLOWER
Shown in 11S-909-Tarmac

VINE
Sheet size 14.5 x 14.5 cm.
5.7 x 5.7 inch

FLOWER
Sheet size 15.2 x 15.2 cm.
6.0 x 6.0 inch

Summary for all testing results

Technical Characteristics	Results	Test Method
Chemical resistance	Class A	ASTM C650
Stain resistance	Class A	ASTM C1378
Bond strength	Average PSI 318**	ASTM C482*Modified
Water absorption	Less than 3.0%	ASTM C373
Corrected Static coefficient of friction test - Dry (after cleaing with Hillyard Renovator)		ASTM C1028
Corrected Static coefficient of friction test - Wet (after cleaing with Hillyard Renovator)		ASTM C1028
Robinson Floor Test	Residential***	ASTM C627
Surface Burning Characteristics	Class B	ASTM E84

* based on 15 x 15 mm. mosaics size

** Using Thin-set : 254 Platinum Laticrete, Thin-Set Mortar (White)

Grouted with : Mapei Keracolor Unsanded Grout with Polymer

*** based on 20x20 mm.mosaics size (Flooring use not recommended for husk and namil material)

1. General Information

- Sonite products must be kept away from high heat and fires, including direct sunlight and open flames. Do not set curling irons, blow dryers, clothing irons, or other hot objects directly on the surface of the product.
- For best results, the surface area to be covered should be completely flat and smooth, with all corners perpendicular.

2. Sonite products

- Differences and variations in shade, flow, grain, tonality, shape, size, veining, moisture absorption, surface finish, color (including discoloration and/or fading, and/or yellowing over time), texture, and coefficient of friction are inherent characteristics and/or occur naturally during the manufacturing process and are not, and shall not be considered, defects in the Sonite products.

3. Application

- Please refer to any relevant technical specifications to determine whether a collection is appropriate for an application. Any specifications or guidelines provided by Sonite are merely general guidelines. They are not instructions for any particular use in any particular location.
- Sonite products are primarily intended for use as indoor decorative wall coverings. Sonite mosaics (10, 15, 20 mm) are rated for light traffic flooring use only if installed with epoxy based tile adhesive and grout. White colored adhesives are recommended for use with translucent Sonite materials to prevent color drops.
BUYER ACKNOWLEDGES THAT SONITE PRODUCTS MUST BE KEPT AWAY FROM HIGH HEAT (SONITE PRODUCTS ARE NOT INTENDED TO WITHSTAND TEMPERATURES IN EXCESS OF 100° C (212°F) AND/OR FIRES.
- Sonite products are rated for use in steam rooms with operating temperatures less than 80° C (176° F) and for wet application (showers, baths, and indoor pools). Epoxy based adhesives and grout are required for installation in steam rooms and wet environments.
- Sonite recommends Laticrete 254 platinum, Weber fix plus, and Weber epoxy that have been tested and approved for normal application with Sonite products. For applications with large ambient temperature variation or light traffic floor applications, epoxy based adhesives and grout are recommended.

We believe that the information in this catalog is reliable and offer the information in good faith without guarantee, as conditions and methods of use are beyond our control. We recommend prospective buyers perform their own testing to determine product suitability for all purposes before adopting Sonite on a commercial or residential scale. In no case is Sonite Innovative Surfaces Co., Ltd. liable for direct, consequential, economic, or other damages. Sonite Innovative Surfaces Co., Ltd. disclaims all other warranties, expressed or implied, including the warranty of merchantability and fitness for a particular purpose.

The data that we have provided is to the best of our knowledge accurate and based on testing for official certifying laboratories. However, each pattern, size and material may be performed differently under different applications and it is up to each customer to determine the suitability of the material for each of their intended application.

NOTHING IN THIS CATALOG SHALL BE CONSTRUED IN ANY WAY TO CONFLICT WITH SONITE'S TERMS AND CONDITIONS OF SALE.
